What Clients say about ICE Consulting

“Before ICE Consulting came aboard over 2 years ago, our infrastructure was lacking and contained various security holes. Your company successfully installed, upgraded, and implemented an up to date infrastructure for our company. We acknowledge that since the upgrade, our mail functions more smoothly and spam and viruses have been reduced to a minimum. In addition, your company has been a great assistance in maintaining smooth operations and communications with our China Development Center.
Senior VP Engineering, Exavio

“Professional, patient, and dependable, ICE is a great example of going the extra mile to create and build lasting partnerships.
Art Raitano, CFO Hoefer & Arnett

“Very good service. They make the extra effort to know and understand our needs. That's why they won our supplier of the year award!
Manager, Adaptec
